

Dear friends and colleagues,

Since the founding of the OPDL, it has been looking after all of us, and helping our field to move further into achieving an equal and proper status to us all, without any exception. If we all unite around it, we will evolve much more quickly into better conditions. The board of this association can't do this alone no matter how powerful it is, thus we need all your help. Let us leave little time for talking and much more for executing.

Sincerely yours,  
Alain Sakr  
President of the OPDL
